

90-Day English Roadmap

From B1+ to B2+ — and toward C1 in selected skills

A complete day-by-day plan · 60 minutes a day · 2 October to 31 December 2026

Start: Friday 2 October 2026 (Day 1)
Study days: Days 1–90, 2 October – 30 December 2026
Final assessment day: Day 91, Thursday 31 December 2026
Daily commitment: exactly 60 minutes
Total guided time: about 90 hours of study plus a final assessment
Profile: final-year AI and Data Science Engineering student
Target: confident, independent everyday and professional English (B2+, approaching C1 where progress allows)

Calendar note: 2 October to 31 December 2026 is 91 calendar days inclusive. This plan uses Days 1–90 for the guided programme and reserves Day 91 (31 December) for the full final assessment, so nothing is squeezed out.

1. Strategy overview

This is a production-first plan. Listening and speaking occupy 35 of your 60 minutes every day; vocabulary, grammar and writing exist to feed them. The logic is simple: you do not reach B2+ by studying English, you reach it by using English under mild pressure, then repairing what broke.

The five design principles

1. **Speak first every day.** The 20-minute speaking block is never optional, even on light days.
2. **Listen without a transcript first.** Transcripts are for checking, never for scaffolding.
3. **Recycle, do not accumulate.** Every vocabulary item must be reused at least twice in later sessions or it is abandoned.
4. **Keep a personal error log.** Days 84 and 85 are dedicated to your own recurring mistakes rather than generic grammar.
5. **Measure monthly, not daily.** Days 1, 30, 60, 90 and 91 are assessed identically so progress is comparable.

The daily 60-minute template

- **15 min — Listening.** One clip, with a set purpose (gist, detail or note-taking) fixed in each day's row.
- **20 min — Speaking.** Recorded monologue, roleplay or debate with a target duration that grows across the three months.
- **10 min — Vocabulary.** 5-8 items always in context, written as full chunks, then said aloud in your own sentences.
- **10 min — Grammar.** One point, explained in two minutes, then used immediately in speech.
- **5 min — Writing and review.** Short production plus error correction and spaced repetition.

How the difficulty rises: speaking tasks grow from 3 minutes (Week 1) to 15-20 minutes (Month 3); listening moves from graded BBC and British Council audio to authentic unadapted podcast and video

content; grammar moves from tense revision to conditionals, passives, reported speech and hedging; and professional English moves from a self-introduction to full mock interviews for Python and AI engineering roles.

2. The three monthly curricula

Month 1 - October (Days 1-30): strengthen B1+ and build fluency

- Diagnose and attack your persistent B1-level weaknesses (tenses, articles, question forms, routine vocabulary gaps).
- Build speaking confidence: from 3-minute monologues in Week 1 to 20 consecutive minutes on Day 29.
- Learn to listen strategically - prediction, gist first, detail second, with transcripts used only after listening.
- Revise essential grammar as a tool for speaking, never as an end in itself.
- Expand everyday vocabulary through collocations and phrasal verbs, and recycle each item at least three times.
- Establish an unbreakable 60-minute daily habit, with one lighter day each week as a safety valve.

Month 2 - November (Days 31-60): build genuine B2 skills

- Hold longer, more complex conversations and disagree or hedge politely under pressure.
- Handle longer and more natural audio at 1.25x speed and with no subtitles on the first listen.
- Discuss abstract topics: education, technology, ethics, sustainability, the future of work.
- Produce complex sentences in real time: conditionals (first, second, third and mixed), passives, reported speech and advanced linkers.
- Write structured arguments, summaries, professional emails and a LinkedIn profile.
- Use professional English: internship applications, project updates, meetings, conflict and deadline conversations.

Month 3 - December (Days 61-91): consolidate B2 and push toward B2+

- Speak spontaneously for 15+ minutes and lead the conversation, including topic shifts.
- Understand authentic unadapted content with no subtitles and at least two accents.
- Deliver two full presentations - one technical, one for a non-expert audience - and handle hostile Q&A.
- Complete three staged interviews: junior Python developer, junior AI engineer and a behavioural interview.
- Attack your remaining individual error patterns in two dedicated error clinics.
- Finish with a six-skill final assessment on 31 December, scored against explicit B1+/B2/B2+ indicators.

3. The 13 weekly cycles at a glance

Each 7-day block ends with a review, challenge or assessment day. Days 57-60 form a four-day November wrap-up block (project and Month 2 assessment), and Week 13 is a three-day final assessment week.

Week	Dates	Central theme	Review / assessment day
Week 1	02 Oct 2026 (Fri) - 08 Oct 2026 (Thu)	Foundations and fluency baseline - everyday identity	Day 7

Day 62 02 Dec 2026 (Wed)	Fast native speech and accents Tutor: Speak to me at natural speed in one accent, then switch accent mid-conversation.	Two YouTube interviews with different accents (for example British and Indian English); compare them.	Five minutes: compare how the two speakers expressed the same ideas.	accent; dialect; pace; elision; get the hang of.	Weak forms and sentence stress - a noticing exercise, then imitation.	Write five sentences you actually heard, word for word.	Tolerance of two accents at natural speed.

Day / Date	Daily topic and AI-tutor instruction	Listening (15 min)	Speaking (20 min)	Vocabulary (10 min)	Grammar (10 min)	Writing / review (5 min)	Expected outcome
Day 63 03 Dec 2026 (Thu)	Note-taking and oral summarising Tutor: Ask me to summarise, then challenge one important thing I left out.	A ten-minute talk; take notes in English using symbols, then summarise it aloud.	Five minutes: summarise the talk in four sentences, then answer three questions.	overarching; in other words; the speaker's main claim; caveat; nuance.	Nominalisation and abstract nouns (growth, adoption, failure).	Write a 120-word abstract of the talk.	Summarising a long talk orally and concisely.
Day 64 04 Dec 2026 (Fri)	Sustaining a 15-minute conversation Tutor: Hold a 15-minute conversation with me, shift topics naturally and do not rescue me.	Listen to a 15-minute podcast interview; note the question types the host uses.	Fifteen minutes: one unbroken conversation with three natural topic shifts.	by the way; that reminds me; going back to what you said; on that note.	Topic-shift and turn-taking devices.	Write five sentences you can use to change topic smoothly.	Fifteen minutes of continuous, unhurried conversation.
Day 65 05 Dec 2026 (Sat)	Nuance: tone, register and implication Tutor: Say deliberately ambiguous sentences and ask me what you actually meant.	A scene from a series or film; identify sarcasm, politeness and what is implied but unsaid.	Five minutes: say the same sentence in three tones - neutral, enthusiastic, sceptical.	tongue-in-cheek; read between the lines; come across as; dismissive; tactful.	Intensifiers and mitigators (a bit, rather, somewhat, absolutely).	Rewrite five blunt sentences more tactfully.	Control of meaning through tone and word choice.
Day 66 06 Dec 2026 (Sun)	Expressing emotions and empathy Tutor: Share a work problem with me and check whether my empathy sounds sincere.	A podcast about wellbeing; note the emotion vocabulary it uses.	Six minutes: talk about a stressful week, then respond empathetically to mine.	overwhelmed; frustrated; relieved; it got to me; I can imagine how that feels.	Reactions and back-channelling (That must have been tough / I know what you mean).	Write a supportive 100-word message to a friend.	Emotional expression plus a genuinely empathetic response.
Day 67 07 Dec 2026 (Mon)	WEEK 9 REVIEW - listening assessment Tutor: Test my listening with ten questions and identify my single weakest listening skill.	Full listening test: two authentic clips, ten questions, one single listen.	Eight minutes: relate both clips to your own experience and opinion.	Review the 40 vocabulary items of Week 9.	Reduced forms and stress - a recognition test.	Write five sentences about what you still miss when listening.	A measured listening comprehension score.
Day 68 08 Dec 2026 (Tue)	Structuring a presentation Tutor: Critique my outline and make me cut one whole section.	Watch two five-minute TED talks; map their structure on paper while you watch.	Six minutes: design and speak the skeleton of a talk (hook, roadmap, three points, close).	let me start by; I'll cover three things; to illustrate; to wrap up; the takeaway.	Signposting language and future forms for presentations.	Write your presentation outline in English.	A clear, logical presentation skeleton.
Day 69 09 Dec 2026 (Wed)	Delivery: emphasis, pausing and rhythm Tutor: Time my delivery and tell me exactly where I lost energy.	Re-watch one talk; mark exactly where the speaker pauses and stresses words.	Six minutes: deliver one section three times, improving pausing and stress each time.	to emphasise; in particular; crucially; and here is the key point.	Cleft and inverted structures for emphasis (What matters most is...).	Mark stress and pause points on your own script.	Noticeably better delivery control and pacing.
Day 70 10 Dec 2026 (Thu)	Handling Q&A Tutor: Ask me six difficult questions about my project, one at a time.	Watch a conference Q&A; note how speakers handle hostile or unclear questions.	Six minutes: present for two minutes, then handle six difficult questions.	that's a great question; to answer that; I'd need to check; let me reframe that.	Indirect answers and softening structures (I'd argue rather than...).	Write five reusable Q&A response templates.	Composed, accurate handling of difficult questions.
Day 71 11 Dec 2026 (Fri)	Presentation 1 - technical audience Tutor: Be a technical reviewer and challenge my methodology point by point.	Watch a technical talk in your own field; note the terminology and the structure.	Eight minutes: present your AI project to a technical audience - method, results, limits.	methodology; baseline; evaluate; benchmark; limitation.	Passive and impersonal structures in academic speech.	Write a 200-word technical abstract of your project.	A complete technical presentation with accurate terminology.
Day 72 12 Dec 2026 (Sat)	Presentation 2 - non-expert audience Tutor: Pretend to be a non-expert and interrupt every time jargon appears.	Watch a science communicator explain a hard idea simply; note the analogies used.	Seven minutes: present the same project to a completely non-technical audience.	think of it as; imagine that; in simple terms; the big picture; why it matters.	Analogy and definition structures (which is essentially...).	Write a 150-word lay explanation of your project.	Successful audience adaptation.
Day 73 13 Dec 2026 (Sun)	Persuasion and winning people over Tutor: Be a sceptical investor and refuse to be convinced easily.	Watch a pitch or sales talk; note the persuasive devices and the concessions.	Six minutes: persuade me to fund your project with three arguments and one concession.	compelling; convincing; the trade-off is; the upside; what's in it for you.	Concessive clauses (although, even if, while it's true that).	Write a 150-word project pitch.	A persuasive six-minute pitch.

Day / Date	Daily topic and AI-tutor instruction	Listening (15 min)	Speaking (20 min)	Vocabulary (10 min)	Grammar (10 min)	Writing / review (5 min)	Expected outcome
Day 74 14 Dec 2026 (Mon)	WEEK 10 REVIEW - presentation assessment Tutor: Score my presentation against a rubric and give three concrete improvements.	Watch your own Day 71 recording if you have one; note five delivery problems.	Twelve minutes: a full six-minute presentation followed by six minutes of Q&A.	Review the week's 40 items.	Presentation grammar audit: articles and tense consistency.	Write a reflection on your presentation strengths and remaining gaps.	A presentation scored against B2+ criteria.
Day 75 15 Dec 2026 (Tue)	Interview: tell me about yourself Tutor: Be my interviewer and dig deeper after every answer I give.	Watch interview answer videos (search: 'tell me about yourself best answer'); note the structure.	Six minutes: deliver a 90-second pitch, then answer five follow-up questions.	I'd describe myself as; my background is in; I'm particularly drawn to; ultimately.	Present perfect plus present simple for building a professional profile.	Write your 150-word interview pitch.	A polished 90-second professional introduction.
Day 76 16 Dec 2026 (Wed)	Interview: junior Python developer Tutor: Run a full mock interview for a junior Python role and score every answer.	Watch a mock interview for junior developers; note the question types.	Eight minutes: mock interview - Python basics, OOP, Git, testing, teamwork.	data structures; version control; unit test; debug; code review.	Conditional and hypothetical answers (If I had to choose...).	Write answers to five common technical interview questions.	A complete junior Python developer interview.
Day 77 17 Dec 2026 (Thu)	Interview: junior AI engineer Tutor: Interview me as an AI engineering lead and probe every project choice I made.	Watch an AI engineering interview discussion; note the topics that come up.	Eight minutes: mock interview - ML pipelines, model evaluation, deployment, ethics.	pipeline; feature engineering; metrics; deploy; bias.	Explaining trade-offs (on the one hand... on the other hand).	Write a 150-word answer to 'explain a model you built'.	A complete junior AI engineer interview.
Day 78 18 Dec 2026 (Fri)	Interview: behavioural questions with STAR Tutor: Ask six behavioural questions and score each answer on STAR completeness.	Watch a video about STAR answers; note the four-part structure.	Eight minutes: six behavioural answers - conflict, failure, teamwork, deadline, initiative, learning.	situation; task; action; result; take the initiative.	Narrative tenses plus result clauses (which led to, as a result).	Write two STAR answers of 120 words each.	Six structured, evidence-based behavioural answers.
Day 79 19 Dec 2026 (Sat)	Networking at professional events Tutor: Roleplay three short networking conversations with me, back to back.	Networking video (search: 'English networking event phrases'); note the closing lines.	Six minutes: circulate - introduce yourself, find common ground, exit politely.	what do you work on?; we should connect; it was great meeting you; circle back.	Polite interruptions and farewell formulas.	Write a 60-word follow-up message to a new contact.	A complete networking exchange from hello to goodbye.
Day 80 20 Dec 2026 (Sun)	Work culture, contracts and salary Tutor: Play an HR manager and answer my questions realistically, including difficult ones.	A video or podcast about workplace culture and employment contracts.	Seven minutes: discuss expectations - hours, remote work, salary, notice period.	probation period; notice period; benefits; remote-friendly; performance review.	Modals of obligation and permission (be expected to, be allowed to).	Write five good questions to ask a future employer.	Confident discussion of working conditions.
Day 81 21 Dec 2026 (Mon)	WEEK 11 REVIEW - full mock interview Tutor: Run a full 15-minute interview and deliver a written report with a score.	Re-listen to your Day 76-78 recordings; note five recurring errors.	Fifteen minutes: a complete mock interview - introduction, technical, behavioural, my questions.	Review the week's 40 items.	Error clinic on your interview transcripts.	Write a 100-word self-assessment of your interview performance.	An interview-ready performance.
Day 82 22 Dec 2026 (Tue)	Pronunciation: connected speech Tutor: Judge my shadowing and give feedback on rhythm and linking only.	Listen to a fluent speaker and mark linking, elision and intrusion in the transcript.	Six minutes: shadow a 90-second clip four times, imitating rhythm exactly.	linking r; consonant-vowel linking; elision; contracted forms.	Recognising and producing contractions (have got to > gotta).	Transcribe 30 seconds of connected speech.	Noticeably smoother, more connected speech.
Day 83 23 Dec 2026 (Wed)	Pronunciation: word stress and intonation Tutor: Ask me to say minimal pairs and tell me which ones I confuse.	Stress-pattern exercise (search: 'English word stress practice for B2'); do the drills aloud.	Six minutes: mark and drill 20 words, then use intonation to change a sentence's meaning.	syllable; stress; rising tone; falling tone; pitch.	Stress shift between word forms (PHOtograph > phoTOgraphy).	Write ten words with their stress patterns marked.	Correct stress on newly learned vocabulary.
Day 84 24 Dec 2026 (Thu)	Error clinic 1 - your remaining B1 habits Tutor: Re-read my error log and test me on exactly those patterns.	Any B1 listening; focus on the grammar you personally get wrong most often.	Six minutes: speak only in the structures you find hard (third-person -s, articles, questions).	Fifteen collocations you personally get wrong in speech.	Drill your own top five errors with ten spoken sentences each.	Rewrite eight of your own incorrect sentences.	A measurable reduction in your top five recurring errors.

Day / Date	Daily topic and AI-tutor instruction	Listening (15 min)	Speaking (20 min)	Vocabulary (10 min)	Grammar (10 min)	Writing / review (5 min)	Expected outcome
Day 85 25 Dec 2026 (Fri)	Error clinic 2 - collocations and naturalness Tutor: Correct every unnatural collocation I produce and give me the natural version.	A podcast; collect ten natural collocations and record them as whole chunks.	Six minutes: use all ten collocations inside one spontaneous monologue.	make a decision; take responsibility; gain experience; strong evidence; highly likely.	Verb plus noun collocations versus the combinations you invent yourself.	Write ten correct collocations in sentences.	More native-like word combinations under time pressure.
Day 86 26 Dec 2026 (Sat)	Fluency: cutting fillers and self-repair Tutor: Count my filler words and report the number per minute.	Listen to a fluent speaker and count their pauses per minute.	Seven minutes: three topics with no um or er allowed; if you stumble, keep going in silence.	well; actually; you know (recognise these), then alternatives - in fact, that said.	Repair phrases (what I mean is; let me rephrase; sorry, I meant).	Count your own fillers per minute in today's recording.	Fillers per minute at least halved.
Day 87 27 Dec 2026 (Sun)	Register: formal versus informal Tutor: Ask me the same question twice; I must answer formally, then informally.	Compare a formal news report with an informal vlog on the same topic.	Six minutes: explain one topic twice - once formally, once informally.	I'd like to; I'd appreciate it if; get in touch; no worries; cheers.	Intensifiers, contractions and phrasal verbs across registers.	Write a formal email and an informal message on the same issue.	Deliberate, controlled register switching.
Day 88 28 Dec 2026 (Mon)	WEEK 12 REVIEW - accuracy and fluency test Tutor: Give me a final accuracy and fluency report with real numbers.	Two authentic clips, ten questions, one listen only.	Ten minutes: three topics with a filler limit and a target error ceiling.	Review the week's 40 items plus 20 collocations.	Grammar accuracy test: 20 items across all three months.	Write a 200-word opinion essay in 25 minutes.	Accuracy and fluency metrics compared with Day 1.
Day 89 29 Dec 2026 (Tue)	Presentation showcase and consolidation Tutor: Be my conference audience and give me a complete evaluation.	Watch your own best recordings from the 90 days and note how much has changed.	Fifteen minutes: a full mini-conference - presentation plus Q&A.	Rapid quiz over all 400-plus items learned since Day 1.	Personal error review before the final assessment.	Write a 250-word reflection on your 90 days.	A showcase performance and fully consolidated vocabulary.
Day 90 30 Dec 2026 (Wed)	MONTH 3 ASSESSMENT (see the assessment plan) Tutor: Administer the assessment, score it and compare it with my baseline.	learnenglish.britishcouncil.org/free-resources/listening/b2 - ten questions, no subtitles.	Recorded test: describe, narrate, argue, present and roleplay (15 minutes).	120-item vocabulary test from all three months.	Twenty-five-item comprehensive grammar test.	Write a 250-word structured argument in 30 minutes.	A Month-3 scorecard compared with Day 1, Day 30 and Day 60.
Day 91 31 Dec 2026 (Thu)	FINAL ASSESSMENT DAY - full CEFR-aligned evaluation Tutor: Administer the full final assessment, score all six skills and write my progress report.	Two authentic clips (one B2, one harder), twelve questions, single listen.	Twenty-minute recorded final test: six tasks, one per learning objective.	150-item cumulative vocabulary test.	Thirty-item cumulative grammar test plus an error-log audit.	Write a 300-word essay in 35 minutes plus one professional email.	A final scorecard with B1+, B2 or B2+ ratings per skill and a plan for the next 90 days.

5. Weekly revision, challenges and assessments

Every week follows the same rhythm: six days of progressive learning, then one review, challenge or assessment day. The weekly review is not passive revision - it is always a spoken performance followed by a written self-assessment.

Week	Review focus	The task	Target outcome
Week 1	Fluency baseline	5-minute recorded 'About me' speech; count fillers per minute; quiz your 40-word deck.	Baseline numbers for speed, fillers and hesitation.
Week 2	Storytelling challenge	6-minute story using past simple, present perfect and past perfect.	Fewer than 8 hesitations in 6 minutes.

Week	Review focus	The task	Target outcome
Week 3	Opinion debate day	8-minute self-debate on AI in education; count discourse markers.	At least 8 different linking expressions used.
Week 4	Fluency check 2 versus Day 1	7 minutes: 'A year in my life as an AI student' + corrected error log.	Measurable fluency gain versus Day 1.
Week 5	Extended conversation	12-minute recorded conversation with three topic shifts.	Under 12 fillers in 12 minutes.
Week 6	Technical explanation without notes	10-minute unprepared explanation of one of your projects.	Clear structure, no notes, correct terminology.
Week 7	Grammar in speech test	8-minute argument using passives, reported speech and conditionals.	20-item grammar test score recorded.
Week 8	Workplace simulation	Morning update, conflict, deadline request and feedback roleplays.	Full simulated workday completed in English.
Days 57-60	Month 2 project + assessment	Seven-minute tech talk with Q&A, then the Month 2 test battery.	Month 2 scorecard vs Day 30.
Week 9	Listening assessment	Two authentic clips, 10 questions, one single listen, no transcript.	Listening score out of 10.
Week 10	Presentation assessment	Six-minute presentation plus six minutes of Q&A.	Scored against the B2+ presentation rubric.
Week 11	Full mock interview	15 minutes: introduction, technical, behavioural, your questions.	Interview report with a score and target list.
Week 12	Accuracy and fluency test	Two clips + 3 timed topics + 20-item grammar test + 200-word essay.	Accuracy and fluency numbers vs Day 1.
Week 13	Final assessment week	Showcase presentation, Month 3 assessment, then the full final evaluation on 31 Dec.	Complete six-skill final scorecard.

Weekly vocabulary review routine

- **Before** the review: self-test your 40 weekly items and mark anything you cannot recall in three seconds.
- **During** the review: say each weak item in a full sentence about your own life, not a dictionary example.
- **After** the review: carry forward at most 10 unresolved items into the next week's deck. Everything else is archived.
- **Monthly:** the month test covers the whole cumulative deck (100 items in Month 1 and 2, 150 in the final test).

6. Monthly assessments and performance indicators

Days 30, 60, 90 and 91 use the same test battery so the results are directly comparable.

The six-part monthly test battery

1. **Listening (15 min):** British Council B2 listening, ten questions, no transcript, one listen only.
2. **Speaking (12-20 min, recorded):** describe, narrate, compare, argue, explain a process, then one roleplay.
3. **Vocabulary (10 min):** cumulative multiple-choice plus definition recall from your own deck.
4. **Grammar (10 min):** 20-30 items mapped to the structures taught that month.
5. **Writing (25-35 min):** one structured argument of 200-300 words plus one professional email.
6. **Pronunciation and intelligibility (5 min, audio required):** read a 150-word passage aloud; assess word stress, sentence stress and pausing.

Skill	B1+ (your starting point)	B2 (the realistic 90-day target)	B2+ (a strong outcome)
Speaking fluency and coherence	Speaks in short bursts; long pauses while searching for words; needs questions to keep going.	Speaks at length on most familiar and many abstract topics; occasional hesitation that does not break communication.	Sustains 15+ minutes with natural pausing; links ideas with a range of connectors; self-corrects smoothly.
Listening comprehension	Understands clear, slow standard speech; needs subtitles for natural speed.	Follows extended natural speech, podcasts and interviews; loses detail, not the main idea.	Follows authentic fast speech and at least two accents with no subtitles; infers meaning from context.
Grammar range and accuracy	Controls basic tenses; recurring B1 errors in articles, third-person -s and question forms.	Good control of conditionals, passives, reported speech; errors occur but rarely cause misunderstanding.	Consistently accurate in complex structures; errors are slips rather than patterns.
Vocabulary range and precision	Everyday vocabulary plus basic technical terms; frequent paraphrase into simpler words.	Broad vocabulary including collocations, phrasal verbs and abstract vocabulary; some imprecision remains.	Uses collocations and idioms naturally; distinguishes near-synonyms and register.
Writing organisation and clarity	Writes clear but loosely organised paragraphs; limited linking.	Writes well-organised emails, summaries and arguments with clear introductions and conclusions.	Writes precise, well-structured professional and academic text with accurate register.
Pronunciation and intelligibility	Generally intelligible; L1 interference affects stress and some sounds.	Clear, mostly natural rhythm and stress; occasional mispronunciation does not impede understanding.	Natural stress and intonation, connected speech, and consistent intelligibility in fast speech.

Important note on "B2+": B2+ is an informal label used in teaching to describe a performance that is comfortably above B2 but not yet a full, verified C1. It is not a separate official CEFR level. The CEFR levels are A1, A2, B1, B2, C1 and C2; anything labelled "B1+" or "B2+" is a working label for a position within a band. Only a standardised, externally supervised assessment (or a trained examiner using CEFR descriptors) can certify your level officially. Treat every score in this plan as an internal progress signal, not a certificate.

7. Progress tracking

Fill one row each week. Be honest: a low score that is recorded accurately is more useful than a high score you cannot defend in a recording.

Week	Dates	Sessions done (/ 7)	Hours (target 7)	Listening (1-5)	Speaking confidence (1-5)	Longest speaking, no major hesitation	New words logged	Words actively reused	Grammar weaknesses corrected	Writing tasks done	Main achievement

Week 13	29/12 - 31/12										

Score Listening and Speaking confidence from 1 (weak) to 5 (confident). "Longest speaking, no major hesitation" means the longest stretch you spoke without stopping for more than about three seconds to search for words. Log new words and reused words as plain counts - the gap between the two numbers is the most useful figure in the table.

8. The reusable daily AI tutor prompt

Open every session by pasting this prompt, with today's roadmap row inserted where indicated. It is written to keep you talking rather than to test you.

You are my personal English tutor. My level is B1+ moving toward B2 and B2+. Today's lesson is: [PASTE TODAY'S ROW: topic, listening task, speaking task, vocabulary, grammar point, writing task and expected outcome].

How to work with me:

1. Speak to me in English at B1+/B2 level and slightly raise the difficulty every few days.
2. Keep sentences short enough that I understand them without a translation.
3. Ask me ONE question at a time and wait for my full answer before the next one.
4. Never interrupt me to correct a mistake while I am speaking. Let me finish.
5. If I am stuck for more than about five seconds, give me a hint or a sentence starter rather than the answer.
6. Stop me if I switch into my native language, and ask me to try again in English.
7. Use only the target vocabulary and grammar of today's lesson in your own questions, and push me to reuse them.
8. When I finish a task, give me this correction table for my three most important errors:

My sentence | Corrected sentence | More natural alternative | Short explanation

9. Label each error as GRAMMAR, VOCABULARY, COLLOCATION or PRONUNCIATION-and-spelling.
10. Keep a running list of my recurring errors and test me on them at the start of the next session.
11. Ask me to re-use every corrected expression later in the same conversation.
12. Be specific in praise: say exactly what was good (for example 'good use of the third conditional').
13. Never give generic praise and never invent mistakes.
14. Do not judge my pronunciation from text alone. When audio is available, ask me to read a short passage aloud and comment only on word stress, sentence stress and pausing.
15. Close each session with: (a) my three errors, (b) two expressions to reuse tomorrow, (c) the single biggest thing to improve next time.

Today, start by asking me one warm-up question about the topic.

The correction format to demand from your tutor

My sentence	Corrected sentence	More natural alternative	Explanation
I am agree with this point.	I agree with this point.	I'd go along with that.	GRAMMAR. "Agree" is a verb, not an adjective, so it takes no "am".
I have 22 years old.	I am 22 years old.	I've just turned 22.	GRAMMAR. English uses "be" for age, not "have".
I made a lot of researches.	I did a lot of research.	I carried out extensive research.	COLLOCATION. "Research" is uncountable and pairs with "do" or "carry out".

Rows above are illustrative examples of the format only; your own table will be built from your real errors.

9. The sustainable version: fallback, motivation and realism

This plan is designed for a final-year student with coursework, deadlines and a life. It assumes you will miss days. The plan is built to survive that.

The 20-minute emergency version

Minutes	What you do
0-5	Listening. One short clip - a 6 Minute English segment or two ELLLO interviews. Gist only, no transcript, no note-taking.
5-15	Speaking. Record a single 10-minute monologue on the day's topic. No preparation, no notes.
15-18	Vocabulary. Take 3 items from today's row, write one sentence with each, and say them aloud.
18-20	Review. Listen back to 60 seconds of your recording and note two errors in your error log.

- It still counts as a completed session. Mark it in the tracker with **20** instead of **60**.
- You may use it at most twice per week. If you need it more often, the plan itself is too heavy - reduce the vocabulary block, never the speaking block.
- Never skip two consecutive days. A missed day is not a debt to repay: this is 90 days of practice, not a perfect-attendance competition.

- If you miss a day entirely, do not double the next day. Continue with the next row and let the monthly assessment tell you what was actually lost.
- Do not promise yourself a flawless week. One usable improvement per session is the success criterion.

Motivation rules

- **Never compensate by doubling.** A missed day is closed, not postponed. Doubling creates burnout and broken streaks.
- **Two consecutive missed days activate the fallback version automatically** - do not wait to feel motivated.
- **Speak badly on purpose sometimes.** Days 86 to 87 deliberately strip out fillers, which will feel worse before it feels better.
- **Keep every recording.** Comparing Day 1 with Day 60 is the single strongest motivator available to you.
- **One lighter day per month is built in** (Day 27) and one lighter day per week is available through the fallback version.
- **Perfectionism is a risk, not a virtue, in this plan.** The goal of every session is one usable improvement, not a flawless performance.

10. Recommended free resources

All links were checked on 2 October 2026. The British Council and English with Lucy pages block automated checks but open normally in a browser; where a specific episode is needed, each day's row gives you a search phrase instead of a fixed URL so the resource never goes stale.

Search phrases instead of links (use these when a specific episode is required)

- "BBC 6 Minute English" + the day's topic keyword (for example: friendship, regrets, social media, sustainability)
- "British Council LearnEnglish B2 listening" + the topic keyword
- "TED talk" + the topic keyword (for example: "TED talk how we learn")
- "TED-Ed" + the topic keyword (for example: "TED-Ed machine learning explained")
- "3Blue1Brown neural networks" for the deep learning explanations
- "English with Lucy" + the grammar or pronunciation point you are working on
- "ello B2 listening" for accent variety in short interviews
- "business English meetings phrases", "English phrases for giving feedback", "English negotiation phrases" for the workplace roleplays
- "tell me about yourself best answer", "STAR method behavioural interview answers" for the interview weeks

11. Final assessment plan - 31 December 2026 (Day 91)

Reserve the full 60 minutes, plus about 30 extra minutes if your schedule allows, and record everything. Score each part against the B2+ indicators in section 6.

Part	Time	What you do	How it is scored
1. Listening	15 min	Two authentic clips: one at B2 level and one deliberately harder, 12 questions, single listen, no transcript.	Score out of 12. Target to reach B2+: 10 or more.
2. Spoken production	20 min	Six recorded tasks, one per learning objective: professional self-introduction, personal narrative, opinion with reasons, comparison of two systems, explanation of an AI concept, and an internship interview segment.	Scored per task against the six-skill rubric. Count fillers and note your longest hesitation-free stretch.
3. Vocabulary	10 min	150-item cumulative test from your own deck, with definitions rather than translations.	Percentage recalled in under three seconds. Target 75%+.
4. Grammar	10 min	30 items across all three months, weighted toward your own error log.	Score out of 30. Target 24+.
5. Writing	25 min	A 300-word structured argument on an unfamiliar abstract topic, plus one professional email.	Organisation, range, accuracy and register.
6. Pronunciation	5 min	Read a 150-word passage aloud, then speak freely for one minute on the same topic.	Word stress, sentence stress, pausing and overall intelligibility.

How to read your result

- **You are at B2+ in a skill if:** you meet the B2+ column in section 6 and the improvement from Day 1 is visible in your recordings - not just in a score.
- **You are solidly B2 if:** you meet the B2 column across most skills with clear, consistent progress and no recurring breakdown in communication.

- **You remain B1+ if:** your scores are below B2 in four or more skills, or if hesitation still blocks you in spontaneous speech.

External verification: if you want a certified level rather than an internal estimate, sit an official test - a CEFR-aligned placement test, an institutional exam, or a standardised test such as IELTS, TOEIC or a Cambridge B2 First paper. Plan that after the 90 days; this plan is designed to make that test achievable, not to replace it.

12. What you can realistically achieve in 90 hours

The honest position: 90 well-used hours move a motivated B1+ learner a clear distance, but they do not guarantee B2+. Roughly 200 guided hours are commonly cited, and often much more, to move one full CEFR band with all skills developed evenly. What you can expect from a well-executed 90 hours is a real change in several skills at once, especially the ones practice rewards fastest. No plan can promise a level: the outcome depends on how you use the hour, how much of it is speaking, and how much English you meet outside the session.

Where you can plausibly reach B2 or B2+ in 90 days

- **Speaking fluency and confidence:** the biggest, most reliable gain. From 3-minute hesitant monologues to 15 minutes of sustained talk. Expect fewer fillers and much less mental translation.
- **Professional English:** from nervous self-introduction to a rehearsed, credible internship interview and a shortened but real technical presentation.
- **Vocabulary in your own field:** strong gains, because you have real contexts and genuine motivation.
- **Pronunciation habits:** word stress, pausing and intonation improve noticeably; individual problem sounds improve more slowly.

- **Listening:** clear improvement on familiar accents and topics; full independence on fast, unfamiliar accents is likely to need more time.

Where you should expect B2, not yet B2+

- **Spontaneous accuracy under pressure:** articles, preposition choices and third-person endings often survive far beyond 90 hours.
- **Vocabulary precision in abstract debate:** range grows faster than the fine distinctions between near-synonyms.
- **Understanding heavily accented or overlapping native speech** in noisy real-life settings.
- **Complex conditionals and hedging** used automatically rather than deliberately.

If you want a verified B2 or B2+ after this

- **Extend to 180-250 hours** using exactly this structure, with a fresh 90-day cycle whose Day 1 equals this plan's Day 91 test.
- **Add 2-3 hours per week of genuine conversation** with a real human - a language partner, a conversation tutor or an English-speaking classmate. Nothing in this plan replaces unscripted talk with a real person.
- **Move 60% of your media diet to English** - podcasts, lectures, documentation and video in your AI and Data Science field. Free input hours are the cheapest progress available to you.
- **Speak in English inside your own work:** write commit messages, notes and project documentation in English, and think through your algorithms in English.
- **Then sit a standardised or institutionally supervised test** to convert internal progress into a certified level.

Your first action, today

1. Open Day 1 in the table and read the row.
2. Paste the tutor prompt from section 8 into your AI assistant, with Day 1 inserted.

3. Record your 3-minute baseline monologue and save it as "Day 1 baseline". You will re-record the same task on Day 30, Day 60 and Day 90.
4. Create the vocabulary deck and the error log in section 7 before you go to bed tonight.
